Safelist *Express*

Safelist Express allows users to Safelist a single vehicle at a single property in the fewest number of steps.

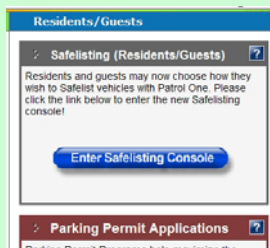

Designed for:

- Multiple occasion, single vehicle Safelisters

Advantages:

- Safelist in 3 clicks from the Safelisting console (after initial setup)!
- Vehicle information linked
- No need to enter contact information on return visits
- No need to enter association on return visits

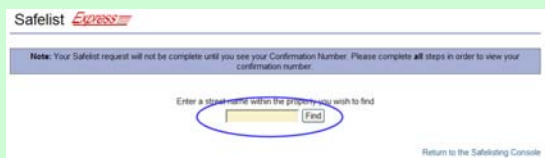

1. Click the 'Enter Safelisting Console' button from our home page.

2. Enter a passcode to associate with this vehicle/association.

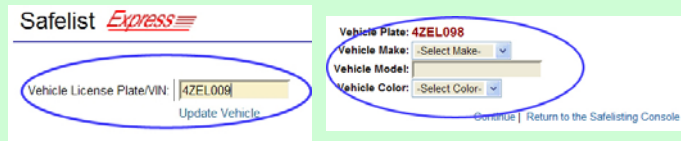

3. Enter a street name from your association (first time only)

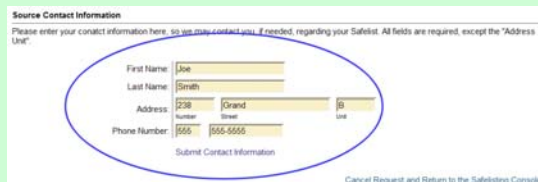

4. Select your association from the list (first time only).

5. Enter your vehicle information (first time only).

6. Enter your contact information (first time only).

7. Select the number of days you would like to Safelist your vehicle (up to the maximum available).

8. Print the Safelist Confirmation Number and be sure it is placed on the dashboard of the vehicle, clearly visible from the outside.
